

Tennis Courts at CHS and Barney Park

CAPITAL HIGH

Our courts were being reconstructed during this satellite shot, but I've outlined the courts in blue and placed arrows to indicate gate locations. I would have the bus follow the red line for drop-off, and then park either in the parking area outlined in yellow (west end of our student parking lot), or head over to the Fairgrounds parking lot, which is just to the NW of this picture (1 min drive). There is no parking available in the lots by the tennis courts. The yellow dotted line shows a walking path from the available parking area behind the school to the courts for spectators who need to park somewhere. The other spectator parking option is inside the neighborhood to the South and East of the school.

BARNEY PARK

(Just south of CHS and across the RR tracks, take Henderson Ave from CHS.)

Parking here is also tricky, there is only room for about 30 cars in the parking lot South of the tennis courts (by the basketball court), or neighboring streets. We suggest buses drop off either at the corner of Allison St and Warehouse Ave or Hudson St and Cleveland St, as the alley through the parking lot cannot accommodate a bus. Bus could either return to CHS or the fairgrounds to park after drop-off.
